Information is subject to change without notice. Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

SL-1 and Meridian 1 are trademarks of Northern Telecom.

Revision history

June 1994

Standard, release 1.0.

December 1994

Standard, release 2.0.

August 1995

Standard, release 3.0.

November 1995

Standard, pre-release 4.0a for testing.

February 1996

Standard, pre-release 4.00 for field trials.

May 1996

Standard, pre-release 4.00.

June 1996

Standard, release 4.00.
